Deer Management Plan

All hunters must have written permission to be on the property and are required to call just prior to hunting to avoid conflicts.

1. Each hunter must take a doe before taking a buck.
2. If a hunter took a doe in the prior season, he/she can take a buck this season; but are encouraged to take does as well.
3. Except as indicated below, all bucks with antlers less than ear width may not be taken.
4. First time and youth hunters can take any deer.
5. Button bucks that are occasionally taken neither count as a buck or a doe.

4-wheelers are allowed only for work related purposes and to haul deer out of remote locations. There is no recreational 4-wheeling or snowmobiling allowed on the farm.
